David and Star,

I am writing to request a meeting with the Councilmember **or appropriate staff member** and my client 8minutenergy Renewables, which is based in Los Angeles and is the nation's leading independent solar PV developer. To date, 8minutenergy has closed over **\$3 billion** in solar Power Purchase Agreements in California.

Their 120MWpeak Springbok 3 Solar project has been approved by staff and will be heard by the LADWP Board in the coming weeks. Upon approval, it will be scheduled at the Council's Energy and Environment Committee.

Would the Councilman or appropriate staff member be available to meet so we can brief you on the Springbok 3 project? The earliest we would be available to meet is February 12.

The attendees of the meeting would be myself and Tom Buttgenbach, the President of 8minutenergy. Many thanks!

Background on 8minutenergy:

The company has 3000 megawatts of solar PV farms under development, 1400 MW in Power Purchase Agreements and over 260 MW in operation. In fact, over the last two years, they have been awarded 35% of all the solar projects procured in California. Every project generates local construction, operational, and service jobs, contributing millions of dollars to local and regional economies. They are now also internationally active and are working on their first project in India.

Hi Veronica,

Hope all is well! We will be happy to meet either this Thursday at 1pm or Friday at 9:30 am. Please let us know if this will work with your calendar.

Thank you,

Star
:)

Star, my apologies for all of the back-and-forth. We are going to hold off on having this meeting until after the item gets through the DWP board. Again my apologies and I will get back to you once it is scheduled at the board.
